WHAT WILL THE WEATHER BE LIKE?

Although Iceland typically enjoys a mild summer (highs ranging in the mid 50s - upper 60s and lows in the 50s) you need to be prepared for ever-changing weather conditions. It's not uncommon to experience sun, rain, sleet, and wind all in one day.

HOW SHOULD I DRESS?

Dress in layers so you have the freedom to add/remove items as the weather changes throughout the day. Moisture-wicking/quick dry fabrics are essential (avoid cotton).
